For Museums and Historical Societies we are recommending ResourceMate® Essential Plus or ResourceMate® Extended.

Resource MATE ®
Your Library Automation Solution

ResourceMate® is Ideal for your Collection

We understand that establishing and maintaining a collection can be time consuming and expensive. ResourceMate® will help you use your time efficiently and productively when managing your collection. We've developed the software so it can be tailored to meet your needs, and priced to meet your budget.

We know that managing a collection involves a variety of tasks and responsibilities. With ResourceMate® you can integrate cataloging, circulation, searching and reporting all into one easy-to-use software program.

We listen to you! We regularly release updates to the software that contain improvements based on suggestions from our customers.
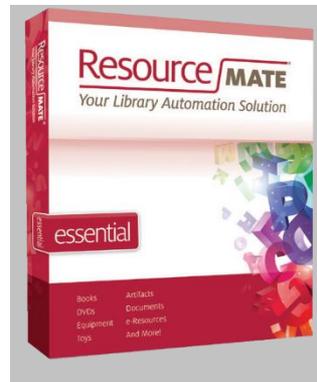

With the ability to store multimedia objects such as pictures, documents, video clips, and files with each item you catalogue, track what is on loan, and catalog any type of resource in your collection.

The Premium program may also be a fit depending on your organization's needs. For information about ResourceMate® Premium, **please visit our website at www.resourcemate.com**

Your Collection.
Our Solution.

We help Museums Establish Efficient Collections with a Cost Effective Solution

We specialize in providing reasonably priced, comprehensive high quality software for any size organization.

That's our niche and we're good at it. Just ask one of our more than 10,000 customers comprised of museums, historical societies, non-profit organizations, schools, religious institutions, retirement communities, and many more.

- Tailor the program to include your own specific resource types including: artifacts, maps, photos, magazines and anything else you have in your collection!

- Store multimedia objects such as photos, files and audio clips

- Save backups of your collection with a few easy steps

"We have been using Resource Mate® for over four years. Resource Mate® has been able to grow with us from having a few hundred items entered to over 10,000. It is easy to navigate and to add different forms of resource types for a clear and organized database."

— The Mammoth Site of Hot Springs
